ANNUAL REPORT OF THE MEDICAL OFFICER
OF HEALTH FOR THE YEAR 1967

To the Chairman and Members of the Arnold Urban District Council

Mr. Chairman, Ladies and Gentlemen,

Herewith my Annual Report for 1967.

The health of the community remains good. The long term benefits from improved housing must be backed by other measures, such as improvement in the degree of atmospheric pollution. 10 years after the passing of the Clean Air Act finds Arnold with only one limited clean air zone.

Housing of the aged should be complemented by establishment of a warden's service. Even if the Council does institute such a service, I recommend that it takes care not to separate the aged from the general population in special depressing little communities but consider the possibility of sprinkling their ordinary estates with bungalows which will, by their location, keep old people in the general life of the community. This can be done with a warden's service.

One problem for the department is the amount of time spent on meat inspection. This takes up the time of one and a half inspectors weekly, even though inspection on the hoof is not properly carried out.

H. D. H. ROBINSON
Medical Officer of Health

Tuberculosis

Taking five-year groups of notifications there is a continuous improvement of incidence.

Preventive measures undertaken since the war include better housing, the inoculation of school children with B.C.G., advances in treatment and mass radiography. It is to these we owe much of this improvement.

Immunisation

I am responsible for this service as agent of the County Council. About half of the immunisation is now carried out in Arnold by family doctors, the rest being done in clinics, schools and factories by the health authority.

A session is held at Arnot Hill Park clinic on the first Friday in each month from 2.00 to 4.30 p.m.

Children resident in the Mapperley area are seen at the clinics held monthly at la Plains Road.

GENERAL PROVISION OF HEALTH SERVICES FOR THE AREA

Laboratory Facilities

The Public Health Laboratory, being the laboratory for the Notts. Area under the Public Health Laboratory Service carries out the following examinations:-

Milk:	Phosphatase Test, Methylene Blue Test Bacteriological etc.
Ice Cream	Methylene Blue Test, Grading etc.
Food	Bacteriological examination of foodstuffs
Water	Bacteriology of water
Pathological Specimens	Bacteriology and pathology of swabs, sputa, etc.

The Laboratory carries out many other functions but the above are the main ones the Department is likely to require. The Service is a most excellent one and is available to the Medical Profession.

City Analyst's Laboratory

Similar examinations to the above are carried out in respect of milk, ice-cream and water. The Laboratory is also able to carry out chemical analysis of food. Mr. E. R. Fogden is an official analyst for the purpose of the Food and Drugs Act 1955.

Ambulance Service

Two ambulances are stationed at the Arnold Station and are available for use in the Arnold Urban and surrounding districts. These vehicles are under the direction of the Notts. County Council Ambulance Control, Telephone No. 82603.

MATERNITY AND CHILD WELFARE SERVICES

Maternity Services

These services are supplied by the Nottinghamshire County Council.

Midwifery Service

The services of the following midwives are provided by the Nottinghamshire County Council.

Mrs. G. Streets, 111 Valley Road, Carlton (for Mapperley area of Arnold only)	Nottingham 248748

CARE OF THE UNMARRIED MOTHER

A few cases under this heading have been dealt with during 1967. Excellent co-operation exists between the Health Staff, the County Almoner service and the Southwell Diocesan Board of Moral Welfare.

All cases are admitted to hospital in order that all necessary steps can be taken to rehabilitate the mother where necessary.

THE CHILD WELFARE SERVICE

All newly born babies are visited as soon as possible after discharge from the maternity hospital or after the midwife has ceased to attend and advice is given by the Health Visitor. All cases are encouraged to attend the Child Welfare Clinics. At all these clinics medical advice is available.

The following Clinics are held:-

Arnot Hill Park:

Tuesday, Wednesday and Thursday afternoons 2-4.30 p.m.

Killisick (Beacon Church) Clinic

Monday afternoon 2-4.30 p.m.

Mapperley (la Plains Road) Clinic

Friday afternoon 2-4.30 p.m.

Consultant Ophthalmic Clinic-Arnot Hill Park

3rd Tuesday afternoon in every 4 weeks 2-4.30 p.m.

(Appointments made by School Health Service,
County Hall, Nottingham)

Supply of Welfare Foods

Various types of welfare foods are available on sale at the clinic and are in great demand by the mothers attending with babies.

These foods, i.e. National Dried Milk, vitamin tablets, codliver oil and orange juice are available at the following times at the Child Welfare Centre, Arnot Hill Park:-

Monday afternoon	2 p.m. to 5 p.m.
Tuesday afternoon	2 p.m. to 5 p.m.
Wednesday afternoon	2 p.m. to 5 p.m.
Thursday afternoon	2 p.m. to 5 p.m.

Supplies are also available at the Killisick and Mapperley Clinics during the clinic sessions.

Daily Guardians

The County Council maintains a system of daily guardians for the children of mothers who must go out to work. There is no Day Nursery available. The mother concerned must find the guardian, who receives a small payment from the the County Council if approved, the mother having to make her own arrangements for the cost of feeding and attention.

Home Help Service

A Home Help Service is provided by the Nottinghamshire County Council. The local organiser is at Park House Clinic, Carlton. (Tel. 247151).

Nursing in the Home

Arnold, Daybrook and Woodthorpe District Nursing Association.

ANNUAL REPORT OF THE CHIEF PUBLIC HEALTH

INSPECTOR FOR THE YEAR 1967

Health Department,
Arnot Hill Park,
Arnold.

To the Chairman and Members of the Council

Mr. Chairman, Ladies and Gentlemen,

I have the honour and privilege to submit my Annual Report for the
for the year 1967.

This was the second full year working of the incentive bonus for
the house to house refuse collection service. The scheme is working
well and very little trouble has been experienced during this period.

Applications for Standard Grants for Improvements have increased
considerably from 16 last year to 39 this year. It is hoped this trend
will continue.

Meat inspection has again accounted for a considerable amount of the
time of the Inspectorate a total of over 86,000 animals having been
inspected.

Your obedient servant

G. T. HAYES
Chief Public Health Inspector

Water Supply

The Corporation of the City of Nottingham is the Water Authority for the Urban District.

A constant supply of drinking water has been available throughout the district during the year.

Swimming Baths

The Public Baths have been well conducted under the able supervision of Mr. W. Watson, Baths Superintendent.

No complaints were received by the Health Department as to unsatisfactory hygiene conditions.

For the financial year ending 31st March, 1968, the income from all sources was £2,000 with a expenditure of £10,971, leaving a balance of £5,671 charged to the Rate Fund, equivalent to a 1.25d. rate.

Three samples of water submitted to the Public Health Laboratory for bacteriological examination, and all were satisfactory.

Drainage and Sewerage

Foul sewage from the whole of the built-up area of the Urban District is dealt with by the Nottingham Corporation at their disposal works, Stoke Bardolph at a cost to this district of £21,218 for the year ending 31st March, 1968.

The cost of maintenance and repairs of sewers within the Urban District for the same period was £27,643 including £27,630 Loan Charges.

River and Streams

There are no rivers or canals within the District.

Five tributary streams drain the area:-

1. Gedling Road and Mapperley confluence via Arno Vale Road and Thackeray's Lane
2. Coppice Road confluence via Bentwell Avenue and Brookfield Road.
3. Kingswell confluence via Nottingham Road Recreation Ground.
4. Calverton Road confluence via Front Street and Nottingham Road.
5. Redhill confluence via Mansfield Road to Jubilee Road.

All converge into the Daybrook which in turn discharges into the River Leen at Bobbers Mill in the City of Nottingham, via the Valley Road Playing Fields.

Closet Accommodation

The position throughout the district generally is in my opinion entirely satisfactory in that a water carriage system operates to the extent of 100 per cent.

No more than 6 Pail Closets remain in outlying parts of the District.

CESSPOOLS

There are approximately 100 cesspools in the outlying parts of the Urban District, on the East, North East and Northern boundaries, where public sewers are not available. These are emptied by the Council on request twice a year (Spring and Autumn) at a charge of 30s. Od. per 800 gallons. An income of £484 was received during the year for emptying cesspools, expenditure was £453.

Beech Avenue, Clumber Avenue, Clipstone Avenue, Mapperley Plains

It is pleasing to report that this area has now been sewered and the majority of the houses have been connected to the sewer. I hope the few remaining houses will soon be connected and the existing cesspools filled in.

Public Health Act, 1936. Section 75(1) Dustbins

The system of replacing defective dustbins is as follows:-

Defective bins are reported by the refuse collectors, a letter is then sent to the owner requesting replacement of the defective bin. After a lapse of a reasonable time, a Statutory Notice is served on the owner giving him 28 days in which to provide same. 18 Statutory Notices were served during the year, and 2 dustbins were supplied in default.

Unsatisfactory containers such as wash-tubs, drums, etc., appear from time to time. Where this happens the premises are visited and the substitute receptacle is ultimately replaced for one of an approved pattern.

Three hundred and twenty seven new dustbins were provided at 129 private premises 198 council houses and other council premises. 129 Preliminary Notices were served.

MEAT INSPECTION

This work continues to be a major operation not only in importance but in the amount of time taken up by the technical staff of the department.

The service was fully maintained throughout the year and one hundred per cent meat inspection was carried out at the one slaughterhouse in the district, that of Messrs. S. Hackett Ltd., 15 Mansfield Road, Daybrook.

During the year swabs and faecal specimens were taken of the lairages and slaughterhouse equipment.

The following animals have been inspected during the period 1st January to the 31st December, 1967.
